County of Lake Inspection Sticker Application
Invasive Species Inspection Program

**Affidavit of Compliance with County of Lake
Invasive Species Inspection Program**

- I understand the serious implications of the spread of certain invasive species, such as quagga mussels, into Clear Lake and other waterbodies in Lake County and the State of California.
- I understand that such species can cause extensive environmental and economic damage that could include a decline in the fisheries.
- I realize it is unlawful to transport these invasive species within California including into Lake County.
- I understand such invasive species can be transported by watercraft and recreational equipment of all types.
- I understand it is my sole responsibility to ensure such watercraft or other items in my possession are properly inspected and decontaminated prior to being introduced into any waterbody.
- I understand that should I fail to properly provide proof of such required inspection and/or decontamination, I cannot use my watercraft or equipment in waters of Lake County.
- I understand failure to provide such proof of inspection or decontamination may result in fines, penalties, and/or criminal charges.
- I understand that a complete inspection and possibly decontamination of watercraft is required at my expense to ensure compliance with local ordinance(s).
- I also agree to repeat all proper and required inspections and decontamination whenever my watercraft or other exposed items are taken out of Lake County.
- I pledge to help keep invasive species out of our waters.

By signing this and displaying the required sticker on my watercraft, I certify that I agree to be part of the solution to prevent the spread and will follow all required procedures prior to using any Lake County waterways.
